

DURASTRIPE

The **Brightest**, the **Whitest**, the **most Durable** aerosol field marking paint.

DURASTRIPE aerosol paint is specifically formulated to be safe for the environment and the user. It has the lowest VOC's and the highest percent solids. **DURASTRIPE** is the most durable, toughest, water-proof aerosol field marking paint, yet it will not kill, hurt or turn natural grass brown. **Proven performance for past 20 years, the BEST PAINT to mark lines, logos, signs, stencils on natural grass athletic fields - Football, Soccer, Baseball, Lacrosse, Field Hockey.**

This is a high-performance, proprietary aerosol paint formula. **DURASTRIPE** aerosols are **safe for the environment and the user. It is specifically formulated to have the lowest VOC's (Volatile Organic Compounds), the highest percent solids, highest brightness, and the most durability than any paint in its category. It will not harm, kill or brown any type of natural grass. DURASTRIPE aerosol paint sprays very crisp, sharp lines, and the aerosol cans will empty completely and will not clog!** Packaged as twelve 20 ounces by volume, 18 ounces by weight cans per case with a divider between cans for extra safety. **DURASTRIPE** is also available in 26 ounce by weight, FAT cans. This extra fill size (44 % extra paint than standard cans) cuts the per ounce price of the paint and also reduces the number of cans needed per application. USSC's aerosol striping machines are designed to fit and spray both our regular cans and fat cans. Our universal "T" tip design fits most machines and will spray a 2 to 4-inch-wide adjustable line. **DURASTRIPE** is also available in narrow, cylindrical "UMA" tips. If there are any questions, we have several qualified customer care representatives who can help.

DURASTRIPE IS AVAILABLE IN BRIGHTEST WHITE AND OVER 80 BRILLIANT STANDARD COLORS AND CUSTOM COLORS IF NEEDED.
