

AQUASTRIPE #10

CONCENTRATED FIELD MARKING PAINT THAT CAN BE THINNED WITH 5 PARTS OF WATER.

Designed as a super concentrate with extremely high amounts of pure prime pigment and acrylic latex per gallon. Even when thinned with 5 parts of water this grade of Field Marking Paint yields a top-quality line marking, logo striping field paint. Will not settle during shipping, storage, after thinning or when in use. **Eco-friendly, economical, saves on shipping costs, storage space and waste reduction.**

Priced by the gallon. Packaged in 1 or 5-gallon plastic buckets.

AQUASTRIPE #10 is a proprietary, super concentrated bulk athletic field marking paint. **Even when thinned with 5 parts of water it is designed to perform as a top quality, extremely durable field marking paint.** Being water-based it is safe for the user and the environment. **AQUASTRIPE #10** will not harm, kill or brown any type of natural grass. **It contains no fillers or extenders to clog up spray machine filters or tips. It contains special additives that make it go through spray machines easier without undue pressure on pumps or batteries.** Can be used with most air-less or battery-operated machines. A very popular choice for soccer associations, parks & recreation departments because it saves on shipping costs and is convenient to store and handle with one-gallon containers. Super concentrate. **AQUASTRIPE #10 contains only prime pigment and acrylic latex.** Additives to make it spray easy.

-
