

INTERSEALER

STRIPPABLE ACRYLIC PRIMER BASE COAT FOR CONCRETE, TERRAZZO, MARBLE FLOORS.

Low odor, high performance clear polymer coating specially formulated to work as a primer, base-coat when applied directly to a floor surface. **Designed and tested to be over-coated with traditional floor finishes-polish-wax that provide better durability, black mark and scuff resistant.** INTERSEALER has excellent bonding to terrazzo, terra cotta, linoleum, marble, cement and yet this tough, durable finish is completely strippable.

priced by the gallon. Packaged in 1 gallon or 5-gallon containers.

INTERSEALER is an enhanced bonding agent, clear finish base-coat primer that is available as standard 18% solids and as **INTERSEALER HS** (high solids) at 30% solids. **Apply directly to floor substrate as a bond enhancer, primer, or base coat. Use on pure vinyl, terrazzo, terra cotta, linoleum, marble, cement floors.** Low odor, dries fast, clear film, soaks into worn floors and promotes a uniform look. This product resists crazing, cracking and flaking on terrazzo floors and is completely strippable. Can be overcoated/top coated with most permanent and strippable floor finishes. Not designed to perform as a top-coat, wearing-surfaces.

- **High performance primer works great as base-coat for specialty flooring applications.**
- Easy to use, Easy to spread, Low odor, Easy to topcoat. Easy to strip.
- Can be forced dried with a fan. Forms a clear, even, non-yellowing film when dry.
- Not designed as a top coat, wear surface. Designed to be top-coated.
- Primer, bonding base-coat on pure vinyl, terrazzo, terra cotta, linoleum, marble, cement floors.
- Available as standard 18 % solids version or **INTERSEALER HS (high solids) 30% solids version.**
